Web deployment with Python, from 1995 on
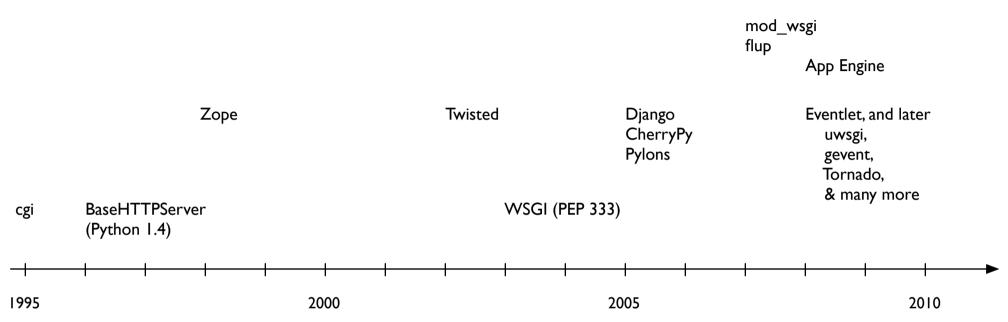

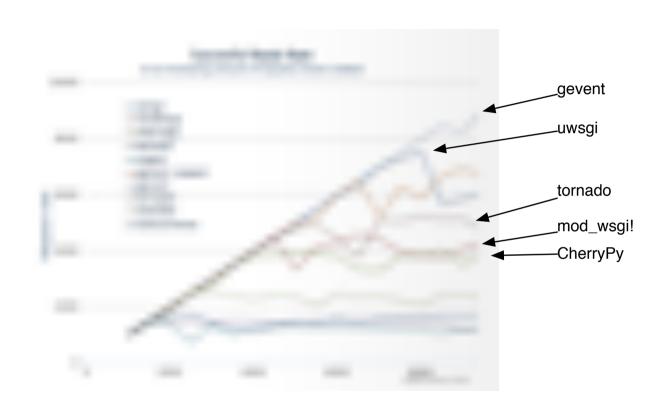

Hunter Blanks, hblanks@monetate.com
@tildehblanks

Timeline: 1995-2011

mod_wsgi
flup

App Engine

Zope   Twisted   Django   Eventlet, and later
                                          CherryPy   uwsgi,
                                          Pylons   gevent,
                                                                  Tornado,
                                                                  & many more

cgi   BaseHTTPServer   WSGI (PEP 333)
       (Python 1.4)

1995   2000   2005   2010

2010 WSGI benchmark!

gevent

uwsgi

tornado

mod_wsgi!

CherryPy

(http://nichol.as/benchmark-of-python-web-servers)

So, some (humbly) suggested options for 2011
